

## big bore bullets part

Fri, 08 Jun 2018 23:54:00 GMT big bore bullets part pdf - A bullet is a kinetic projectile and the component of firearm ammunition that is expelled from the gun barrel during shooting. The term is from Middle French and originated as the diminutive of the word *bouille* (*boulet*), which means "small ball". Bullets are made of a variety of materials such as copper, lead, steel, polymer, rubber and even wax.
